

# DENIOS

## Safety is in our DNA

At DENIOS we offer our clients more than just a good product. It is our aim to prevent the catastrophic consequences of incorrectly stored and handled hazardous materials. We design, manufacture and supply a comprehensive range of products related to hazardous materials storage, environmental protection and health and safety at work. We are proud to say that this ever-growing product range helps to protect workers, the environment and your product in every corner of the world.
